Notes from the Composer

This song was inspired by what we imagine at different stages in our life.

In verse 1, the text is from a young child's point of view—imagining what they see in the shapes of the clouds.

In verse 2, the young adult is wondering what their life could be like—full of adventure and discovery.

The third verse is more reflective as an adult is imagining what the world around them could be if we showed kindness and love to everyone around us.

The last verse invites people of all ages to work together to achieve harmony and peace.
